SwimEze®

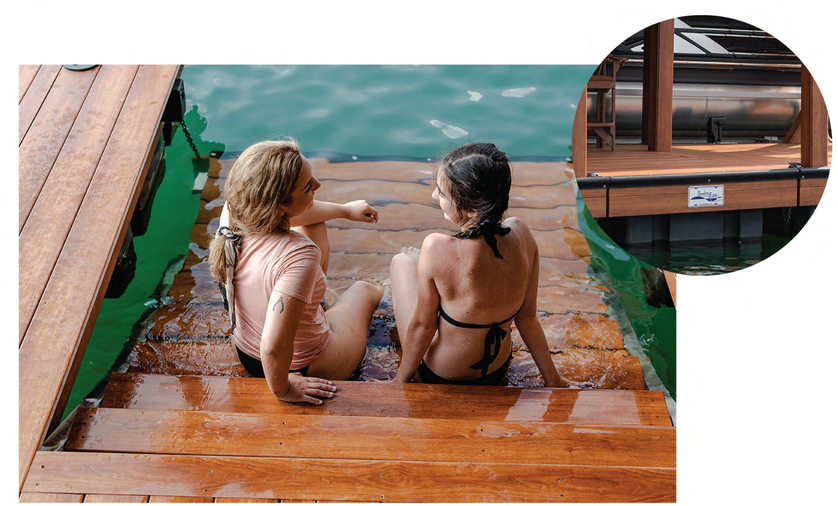
The SwimEze® Stair System by Kroeger Marine

SwimEze® is the ideal solution for making access to the water convenient and effortless for everyone. Incorporated into the plan of your dock, SwimEze® has broad, easy steps that automatically descend into the water creating an inviting and luxurious experience. When not in use, the entire dock area can be utilized for relaxation, sunning, get-togethers, and more.

Key Features:


1. Convert your dock from “deck” to “steps” in minutes
2. Easier access to water for adults, children, and pets
3. Benefit from usable deck space when the steps are not deployed
